chiefly valuable for agricultural purposes, and (2) all provisions concerning irrigation water set forth in § 2430.5(d) are met.

(f) Lands outside of Alaska may be classified as suitable for Indian allotment under part 2530 of this chapter if (1) the lands are valuable for agricultural purposes, and (2) the lands are on the whole suitable for a home for an Indian and his family, and (3) the anticipated return from agricultural use of the land would support the residents, and (4) the requirements for water supplies set forth in § 2430.5(d) are met.

(g) Lands determined to be valuable for purposes other than public purposes may be determined to be suitable for exchange if the acquisition of the offered lands, the disposition of the public lands, and the anticipated costs of consummating the exchange will not disrupt governmental operations.

## § 2430.6 Additional criteria for lands valuable for other purposes.

Lands may be classified for disposal under any applicable authority where they are found to be chiefly valuable for purposes other than those described in §§ 2430.2–2430.5 of this section and to be not suitable for retention for multiple use management.

### Subpart 2440—Criteria for Segregation

#### § 2440.1 Use of criteria.

The following criteria will govern the determination of the extent to which classifications and proposed classifications will segregate the affected lands from settlement, location, sale, selection, entry, lease, or other forms of dis-

posal under the public land laws, including the mining and mineral leasing laws. The segregative effect of each classification or proposed classification will be governed by applicable laws and regulations, and will be stated in the classification notice or decision.

#### § 2440.2 General criterion.

The public lands classified or proposed to be classified under the regulations of this part will be kept open to (i.e., not segregated from) as many forms of disposal as possible consistent with the purposes of the classification and the resource values of the lands.

#### § 2440.3 Specific criteria for segregative effect of classification for retention.

(a) Public lands classified or proposed to be classified for retention for multiple-use management will be segregated from those forms of disposal which, if the lands remain open thereto, could:

(1) Interfere significantly with the management of the lands under principles of multiple use and sustained yield, or

(2) Impair or prevent, to an appreciable extent, realization of public values in the lands, or

(3) Impair or prevent, to an appreciable extent, realization of the objectives of retention and management set forth in part 2420, or

(4) Lead to unnecessary expenditures of public or private funds arising out of individual efforts to acquire public lands under laws, which are in fact not applicable, because of the nature of the resources of the lands.

(b) In applying the criteria in paragraph (b)(1) of this section, land shall not be closed to mining location unless the nonmineral uses would be inconsistent with and of greater importance to the public interest than the continued search for a deposit of valuable minerals.

#### § 2440.4 Specific criteria for segregative effect of classification for disposal.

Public lands classified or proposed to be classified for disposal will be segregated from those forms of disposal which, if the lands remained open
